FOR APPROXIMATELY 3 WEEKS IN APRIL**

**FOR SOIL NUTRIENT TESTING THROUGHOUT THE YEAR,
CONTACT OAKLAND COUNTY MSU EXTENSION: 248-858-0902.**

Soil Testing is important for healthy plants & clean water

A soil test is the best way to learn about the needs of your garden or lawn. A soil test indicates nutrient levels already in your soil - a first step in determining how much and what type of fertilizer is needed for the plants you are trying to grow.

Over application of fertilizers can pollute water resources, ruin plants and waste money.
