

# SUSTAINABLE RESIDENTIAL LANDSCAPES

*Soils • Vegetation  
Rainwater harvesting • Nutrient recycling  
Climate-conscious gardening tips*

---

**THURSDAY, AUGUST 5, 2010  
6:30 pm – 8:00 pm**

**Troy Community Center, Room 305  
3179 Livernois (1/4 mile north of Big Beaver; west side of Livernois)**

**Featured speaker: RICK LAZZELL  
LANDSCAPE DESIGNER & HORTICULTURE CONSULTANT**

**PLUS**  
*Tours of the Aloeterra House and landscape:  
5:45 – 6:15 pm OR 8:00 – 8:30 pm*

**About the program:**

*On-site recycling and conservation of rainwater, soils, and nutrients helps to protect lakes, rivers, air and land resources. Sustainable practices, with a natural landscape aesthetic, can also save homeowners time and money when compared with more traditional approaches.*

*Rick Lazzell, the featured speaker, has 30 years of experience with design, installation, and maintenance of sustainable landscapes. How-to-do-it tips for site grading and drainage, with low-maintenance in mind, will be emphasized.*

---

*Seminar sponsored by SOCWA, Southeastern Oakland County Water Authority  
Funded in part through a grant to SOCWA from the  
Michigan Department of Natural Resources and Environment*

---

**FREE PROGRAM, BUT ADVANCED REGISTRATION IS REQUIRED**

**Telephone the SOCWA office: 248-288-5150 or
